Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. in response to the amendments filed 4/13/2004, all the amendments have been entered and the action follows:

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 8-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8-12 recites the limitation "the external unit" in last line of 8-12 claims.

There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1-6, 8-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Armin (FR 2784066) in view of Hsu et al (US 6100811).

With respect to claims 2-6, 8-12 the rejections are respectfully maintained and incorporated by reference as set forth in the previous office action paper number 8.

Claim 1 is rejected for the reasons as set forth in the rejection of claim 6, because the limitation as claimed in claim 6 previously are incorporated in the claim 1.

Response to Arguments

7. Applicant's arguments filed 4/13/2004 have been fully considered but they are not persuasive. Applicant argues that the reference fails to disclose operation unit comprises at least one of a wiper switch a turn signal a shift lever and a navigation unit for providing navigation services, (see page 10 of remarks) as claimed. Examine

Art Unit: 2623

disagrees and would like to point out that the limitations are given their broadest reasonable interpretation possible. In the instant case reference Armin discloses the manipulation detection means for detecting the manipulation of at least one operation unit and the operation unit being the shift lever (see page 6 line 23 through page 7 line 24, also figure 1, numerical 14 as being the shift lever, as being the operation unit and the sensing of the shift being the manipulation means) as claimed.

Also, applicant argues that the references fail to disclose the switching between the first and the second mode, (see page 12 of remarks). In this instant reference Hsu in fingerprint actuation of customized vehicle features teaches the first processing mode and a second processing mode for administering storage of information of the fingerprint information storage means, (see col. 7, lines 27-48, the first mode being the one where the user/ primary user have the fingerprint authorized before using the vehicle and the second mode being the enrollment mode) as claimed.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2623

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
